

This is to be used as a guide for information purposes only.  
As always, use of HMC Parking Lot(s) is at your own risk!

**Beware high tide notice:** Each year when tides exceed 15 feet our mainland parking lot and the North Beach parking lot may be at risk of flooding. Reports are that flooding usually occurs at about 15.8 feet. However, if a high tide coincides with a period of heavy rain and/or winds and/or low atmospheric pressure or any combination thereof, the *ability to anticipate flooding diminishes*. Consider this prior to parking lot use. Here is a list of dates with predicted tides of 15 feet and above.

10/27/11	15.0	12/19/11	15.3	01/23/12	15.8	06/04/12	15.2	11/17/12	15.9
