

Our Website and How to Get Something Posted There

The HMC website is a repository for information affecting island operations and its members. Since it is a part of the worldwide web, we are naturally cautious of what gets posted there. The Board has always sanctioned the posting of information that is of immediate concern to our members. It is a wealth of information and should be perused on a regular basis. The Home page is typically used to post information that is of immediate interest, such as Ferry operation status, the Beachcomber, notice of upcoming meetings, etc. Photographs relating to the island are posted under the Photos tab in the left menu bar. Because of limited space, we don't publish photographs that are not directly related to the island.

If you have something that you would like to see posted, please write a letter or send an email to the office with a request. Your request will be forwarded to the Board for consideration. It might be an issue that would benefit from membership input, in which case we would make it an agenda item at the next Board meeting. **If it is an issue of immediate interest or might have a short "shelf life", send an email to Carolyn who will forward it to the Board requesting a quicker response.** It might then be posted as an "Alert" notice that is front and center on the Home page. We strongly encourage everyone to check the website as often as possible and to delve into the archived information that is available there.
